To the
Commissioners Locating the
Public buildings
of Rappahannock

2 A

From this to Chester Gap, which will
give the Centre with ^{the} certainty, which
point, the Public Buildings, should
approximate, as near as practicable.

I am with highest resp^t
yrs, D^r C^t L^t,
Jed. M. Parson

Washington 19th May. 1833

Gentlemen

I am very unwilling to intrude further on your time, when your table is already groaning under Memorials of the same import; but you will permit me to present the accompanying diagram of the County of Mathhannock, showing from the best data I have at this time, the different pretensions of the Centre of the County - The explanations are plain on the map; you will understand them at a glance. -

I will also promise, by St Belock on Monday to give the measured line

N 42° W. 16 Miles to Madison & Co. Corner

3 miles

N 39° E 6 1/2 Miles

N 7 1/2 Miles

N 52° E 11 Miles to 150.00

To Washington 12 1/2

To Gray Town 10 Miles

Madison Corner to Washington 13 Miles

To Gray Town 7 1/2 Miles

To Washington 10 Miles

To Washington 10 1/2 Miles

Hansen Mill to W. 15 3/4 Miles

To Gray Town 12 1/2

To Washington 10 1/2 Miles

17 1/2 Miles to Chertou Gap Corner

16

14 1/2 to W.

and a week - The distance may be a mile or two
 farther, but the country through which it will pass if
 by Washington is one much better suited for making the
 road on account of having fewer mountains & water
 courses to encounter. It is also believed that the ^{most}
~~may~~ to be raised could be much more easily
 obtained
